

## Teaching and Learning Webinar

APACPH and QUT presents the first in a series of Webinars featuring highlights from teaching and research by academics in Public Health in the Asia Pacific region. This webinar will be presented by Dr Julie-Anne Carroll, Lecturer, *School of Public Health and Social Work, Queensland University of Technology*. You are invited to join in the webinar lecture and discussion which will be facilitated by Professor Philip Baker, also from the School of Public Health and Social Work at QUT. Prof. Baker will facilitate online and live discussion, questions, and debate following Dr Carroll's presentation.

### Details are as follows:

#### WHO:

**Dr Julie-Anne Carroll, PhD**, is a Lecturer in the School of Public Health & Social Work (SPHSW) at Queensland University of Technology, Brisbane. She lectures in the areas of Women's Health, International Health, the Social Determinants of Health, and Sociology and Health.

**WHAT:** *Digital stories in international health: multimedia approaches to researching and communicating responses to situation analyses in a third year public health cohort.*

For the Situation Analysis assessment of the International Health course at QUT, Public Health students produced Digital Stories to portray their analyses of the constituent elements, structure, and inter-relationships of a population suffering the effects of poor health based on a variety of social, cultural, economic, and other material determinants. Digital Stories are multimedia movies created from easy to access software and webpages that combine photographs, video, animation, sound, music, text, and often a narrative voice. The assessment was designed to allow students to engage with new media technologies to generate powerful methods of communicating public health research.

**WHEN:** 1 hour duration

Tuesday 29 August: 10:00am Bangkok, 11:00am Kuala Lumpur, 12:00pm Seoul / Tokyo, 1:00pm Brisbane
